FOIPA Request No.: 1185661- 000  
Subject: DISNEY WORLD

Dear Mr. Smathers:

Reference is made to your Freedom of Information-Privacy Act (FOIPA) request dated March 16, 2012, to FBI Headquarters (FBIHQ) for records concerning Disney World.

The search of our Central Records System at FBIHQ located ten Tampa (TP) main files, 1 San Juan (SJ) main file and four Headquarters (HO) main files responsive to your request. These files in which Disney World is indexed consist of approximately 5,025 pages. If all the pages are determined to be releaseable, duplication costs of \$492.50 could accrue. This amount represents a charge of ten cents per page, with the first 100 pages of duplication free, or \$140 for CDs, which represents the cost of 10 CDs at \$15 minus \$10 for the equivalent of 100 pages of free duplication. It is emphasized that this is only an estimate. No duplication fees will be assessed for pages that are withheld in their entirety pursuant to any FOIPA exemption.

Department of Justice regulations (Title 28, Code of Federal Regulations, Section 16.11 and 16.49) require notification to a requester when anticipated fees exceed \$25. This letter constitutes such notification. Please advise us, in writing, of your willingness and ability to pay duplication fees estimated at \$492.50 or \$140.00.

Due to the large volume of material, we are interested in accelerating the release of it to you. In order to do so it would necessitate your reducing the scope or volume of your request. In addition to accelerating the release of material, there would also be the added benefit of reducing your duplication costs as well. What follows is a description and approximate page count of the files responsive to your request. This information will enable you to make an informed decision concerning reducing your request.

1. File 265-TP-49968 is a Threat Against Disney investigation. The investigation is from 10/1999. The file contains an estimated 22 pages.
2. File 279-TP-49439 is a Threatening Letter investigation. The investigation is from 7/1999. The file contains an estimated 32 pages.
3. File 288-TP-51940 is an Info System Intrusion investigation. This investigation is from 9/2000. The file contains an estimated 248 pages.
4. File 47-TP-20058 is an Impersonation of FBI Agents investigation. The investigation is from 7/1989. The file contains an estimated 15 pages.
5. File 92-TP-1859 is a Threat to Bomb Disney investigation. The investigation is from 6/1974. The file contains an estimated 97 pages.
6. File 9-TP-51333 is a Threat Against Food Supply investigation. The investigation is from 6/2000. The file consists of an estimated 63 pages.

7. File 174-TP-70165 is a Possible IED investigation. This investigation is from 7/2007. This file consists of one main section with approximately 23 pages and one sub file with approximately 13 pages.
8. File 174-TP-70225 is an investigation of a suspicious container from 7/2007. This file consists of 10 pages.
9. File 192-TP-38153 is an Extortion investigation. The file is from 6/1995 - 5/1996. The file consists of four main files consisting of approximately 998 pages and six sub files consisting of approximately 970 pages.
10. A highly classifiable file which closed in the 1990's. This file consists of five main files and one sub file.
11. File 199-SJ-38016 is a Possible Terrorist Attack Threat Against Disney from 4/2002. The file consists of approximately 203 pages.
12. File 174-HQ-2907 is a Threat to Bomb Disney investigation from 3/1972. The file consists of approximately 76 pages.
13. File 174-HQ-5407 is a Threat to Bomb Disney investigation from 6/1974. The file consists of approximately 81 pages.
14. File 92-HQ-13304 is a Threat to Bomb Disney investigation from 8/1972. The file consists of approximately 29 pages.
15. File 92-HQ-16296 is an Extortion investigation from 12/1974. The file consists of approximately 226 pages.

In order to accelerate the receipt of the responsive material you may wish to reduce the number of pages to be processed from the initial quotes of 5,025 pages and 10 CD's. For example, should you wish to receive only the material located in the main sections (contains all pertinent information related to the investigations) your request would be reduced to approximately 3,999 pages at a cost of only \$389.90 for paper or \$110.00 for CD. Another option would be to take the main sections from all files from 1990 to the present, reducing your pages to 1,599 pages and your cost to \$149.90 for paper or \$35.00 for CD. Any of these options alone or in combination would not only speed up the processing of your request, but would also greatly reduce duplication charges. **If you decide not to reduce the scope of your request, we will need a written statement from you expressing your willingness and ability to pay duplication fees that could be as high as \$492.50.**

In addition, you have requested a fee waiver. Please be advised that according to 28 CFR § 16.11(k)(2), the following factors must be considered:

- ( i ) The subject of the request: Whether the subject of the requested records concerns "the operations or activities of the government."
- ( ii ) The informative value of the information to be disclosed. Whether the disclosure is "likely to contribute" to an understanding of government operations or activities.
- ( iii ) The contribution to an understanding of the subject by the public likely to result from disclosure: Whether disclosure of the requested information will contribute to "public understanding."
- ( iv ) The significance of the contribution to public understanding: Whether the disclosure is likely to contribute "significantly" to public understanding of government operations or activities.

While some of the files may qualify for a fee waiver, all files will not. At this time, we ask that you express your willingness to pay all fees. Once you have decided whether or not to reduce the scope of your request, all remaining files to be processed will be evaluated pursuant to the four factors above to determine your final cost.

We ask that you review all the information and weigh your options carefully and that you advise us of your decision in writing within 30 days.

Very truly yours,

The search of our Central Records System at FBIHQ located nine Los Angeles (LA) main files and six Headquarters (HQ) main files responsive to your request. These files in which Disneyland is indexed consist of approximately 3,136 pages. If all the pages are determined to be releaseable, duplication costs of \$303.60 could accrue. Department of Justice regulations (Title 28, Code of Federal Regulations, Section 16.11 and 16.49) require notification to a requester when anticipated fees exceed \$25. This letter constitutes such notification. Please advise us, in writing, of your willingness and ability to pay duplication fees estimated at \$303.60 for paper or \$80.00 for CD.

Due to the large volume of material, we are interested in accelerating the release of it to you. In order to do so it would necessitate your reducing the scope or volume of your request. In addition to accelerating the release of material, there would also be the added benefit of reducing your duplication costs as well. Another option would be to take the main sections from all files from 1990 to the present, and eliminate the duplicate Headquarters files. This reduction would bring your request to 627 pages and cost \$52.70 for paper or \$20.00 for CD. Any of these options alone or in combination would not only speed up the processing of your request, but would also greatly reduce duplication charges. **If you decide not to reduce the scope of your request, we will need a written statement from you expressing your willingness and ability to pay duplication fees that could be as high as \$303.60.**
